Mixed reports of Col. Gaddafi's capture/death are coming from confused, disparate rebel forces in Libya; however, it is improbable that the US/NATO would allow a captured Gaddafi to stand trial as the experience with Saddam proved compromising and counter-productive. We can all safely assume that reports of Gaddafi's death are accurate, as it was only a matter of time before the might of the US/NATO criminal alliance prevailed over a most wily and irritating African foe.

We would add that the death of one man does not constitute a victory for the criminal alliance or the defeat of Freedom from neo-colonialism.

The most enduring memory of the Libyan farcical 'humanitarian' bombing campaign will be the frenzy with which CIA backed and NATO forces undertook the takeover of Libya and her precious resources. The western criminal alliance openly panicked and established a Reserve Bank "with governor" in Benghazi in the 2nd week of the campaign and then openly pursued an un-mandated and criminal assassination campaign against Gaddafi and his family, a war crime in any language.

Whatever his faults, Gaddafi gave his people the highest standard of living in North Africa and a sovereign wealth fund which would have sustained the nation had Western Banks not stolen the gold and money in the early stages of the CIA fomented conflict.

It was a very messy criminal war which promises to compromise the US and NATO in the near future.

America is now free to invade the Congo and other resource rich African nations via its puppet colonies, especially Uganda.

Gaddafi's demise was reported on Thursday morning 20 October 2011.

Long may the free WORLD resist the criminal US/NATO alliance and other forces of economic slavery and social oppression.

We are ONE.

Peace.

Gaddafi established a Sovereign Independent National Bank and returned to the gold standard something the New York based Global Reserve Banking Cartel could not tolerate, he was targeted for assassination for this and other reasons by Western Banking and Oil interests -- the rest is transparent propaganda. CIA backed rebels are today crying 'freedom,' indeed, they are now free to be EXPLOITED and debt enslaved by Western Banks, rapacious Transnationals and polluting Oil Companies. Libyans will soon realise they have been DUPED and have become slaves to corrupt

puppet politicians controlled by Western Corporatist interests -- Libya is free no more.

What is not reported today is that most Africans are mourning Gaddafi's death. Colonising and plundering other African nations will prove very difficult indeed for Transnational interests. Numerous fronts will soon open up against Western Imperialist forces supported by highly trained international guerrilla fighters. The ruling Banking and Transnational cartels will not be able to sustain a global resistance on multiple fronts .

Gaddafi's death marks the beginning of an international fight against debt slavery, plunder and social EXPLOITATION/subjection to the whims of a PARASITIC, criminal minority.

The US will soon collapse under the economic pressure of waging multiple conflicts around the globe and internal terrorist attacks-- it's all but over for the criminal elites now!

The world is AWARE and cannot return to slavery in any form -- the FREE PEOPLE of the WORLD are ONE and will NOT be SUBJECTED to criminal ruling elites AGAIN -- it is OVER!
