international / mass media / commentary

Kevin 'yes Rupert' Rudd, former PM of Oz, narcissist and servile no-account politician, made a dutiful (for CFR Murdoch and Washington) media statement today regarding the CIA fomented Syrian rebellion: "**... we cannot stand idly by and watch innocent civilians being slaughtered,**" as we did when criminal NATO flew 26,000 bombing raids over Libya, murdering 30,000 innocent civilians in the process; the ICC didn't see a thing but Banking and Oil elites were extremely happy with the result -- criminal mission accomplished!

Disgraced former leader, Kevin 'non-event' Rudd

Who are you trying to kid this time Rudd, you custard-faced, no-account, do-nothing, EX-leader? You have ZERO cred, even less than Washington doormat, Juliar Gillard!
